

**AFLON
DIGITAL
ACADEMY**

**THE
TECHNOLOGY
COLLEGE**

... basic education nursery, primary & technology skills learning secondary school

Aflon Digital Academy at Kuje, Abuja (established in 2005) has now been transformed with additional facilities for Teaching and Learning Technology. It became clear in recent years that basic science subjects of **Biology, Chemistry** and **Physics** are no longer sufficient for the world of today that is ruled by technology. Technical subjects of tailoring, bricklaying, hairdressing, vulcanising, etc. have become quite inadequate. In the age that requires multi-skills, we now offer additional subjects in line with our vision for imparting technological teaching at secondary school level, that are not available yet in Nigeria.

We have built a **Technology Learning Centre** through which four (4) new subjects going to be part of our **Junior and Senior Secondary School** curriculum:

1. **Computer Coding,**
2. **Mechatronics,**
3. **Design & Multimedia Technology,** and
4. **Electrical/Electronics & Computer Technology.**

Students Admissions

Beginning from September, 2019 our school will begin to offer the above named subjects to our students at Kuje, Abuja. The Ilesa, Osun State School will commence in 2020. **TTC will operate on a 6-day academic week in order to allow more time for studies and practical exercises. Most students will therefore have to live in the boarding house.** Parents and their children should now apply for admissions by visiting the school website: **www.ttc.edu.ng**. Parents are also advised to **TEXT their (a) names and (b) e-mail addresses to 0803 312 1004**, in order to receive further details.

Career Vacancies

The teaching team for the technology subjects would be led by graduates (**HND, B.Sc. and M.Sc.**) in **any field of study**. However, and very importantly, only those with practical skills obtained through apprentices and attachment to companies and even the so-called road-side technicians are likely to be appointed. Academic certificates of degrees will count for far less in our school system.

Prospective staff should forward application letters: the 2 to 3 page long essay + updated CV in MS Word or PDF Format to: **director@ttc.edu.ng**.

From 2019, TTC will operate at Kuje, Abuja and from 2020 at Ilesa, Osun State, Nigeria.
